SUMMARY

Front-End Developer building responsive web applications with React, TypeScript, Next.js and Tailwind CSS. Experienced in Node.js, Express.js, and REST APIs for full-stack development.

EXPERIENCE

Front-End Developer

Argonaut Research Technologies **August 2024 - Present, Tbilisi, Georgia**

- Migrated 70,000+ lines of legacy ES5 JavaScript codebase to modern ES6 standards using React, reducing load time by 40% and improving code maintainability and scalability.
- Developed 3 of the most complex and core functionalities of the application, directly impacting user engagement and ensuring robust, scalable solutions.
- Supervised and mentored 3 junior developers, providing guidance on best practices and code quality standards.
- Collaborated closely with design and back-end teams to implement 30% of the application's responsive, user-friendly interfaces.
- Debugged, refactored, and optimized front-end code by completing approximately 20% of refactoring tasks and resolving 10-15% of critical bugs, improving application stability by 35%.

PROJECT

Argonaut Research Technologies

Argonaut Research Technologies • argonautresearch.com/

- Developed and maintained the front-end of an industrial research platform using React, TypeScript, and Tailwind CSS, implementing modern development practices to create responsive and user-friendly interfaces.
- Migrated 70,000+ lines of legacy JavaScript code to modern ES6 standards, improving maintainability by 50% and performance by 40%.
- Built 3 of the most complex and core functionalities of the application, ensuring robust and scalable solutions that increased user engagement.
- Integrated REST APIs for seamless data fetching, processing, and management across the application.
- Mentored 3 junior developers and enforced best practices to improve overall code quality by 35%.
- Collaborated with back-end developers to optimize API integration and ensure smooth front-end to back-end communication.

EDUCATION

Front-End Development Course

Academy of Digital Industries • Tbilisi, Georgia • 2024

CERTIFICATIONS

HTML & CSS Course

Academy of Digital Industries • 2024

- This HTML & CSS certificate validates my ability to create responsive, well-structured, and visually appealing web pages, forming a strong foundation for front-end development and modern web design practices.

JavaScript Course

Academy of Digital Industries • 2024

- This certificate validates my knowledge of modern JavaScript (ES6+), DOM manipulation, and building interactive web applications.

React Course

Academy of Digital Industries • 2024

- This React certificate demonstrates my ability to build modern, component-based user interfaces using best practices, including state management, reusable components, and integration with REST APIs.

SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, HTML5, CSS3, React, Next.js, Tailwind CSS, Node.js, Express.js, MongoDB
Tools & Libraries: Git, GitHub, Redux, REST APIs, JWT Authentication, Mongoose, Vite

Core Skills: Front-End Development: Responsive Design, UI/UX Implementation, Cross-Browser Compatibility, Performance Optimization Back-End Development: RESTful API Development, Server-Side Logic, Error Handling, Debugging, Database Interaction
Soft Skills: Problem-Solving, Time Management, Team Collaboration, Communication
